GSD - Get Shit Done

Update

```
npx get-shit-done-cc@latest
```

Danach in CC posten:

```
with "C:\Users\uhgde\.claude\playbooks\gsd-post-update-playbook.md" in mind patch the newly installed gsd-version. Show me discrepancies or problems if something is like not compatible in the new version so we can figure out what to do and to update the playbook.
```

Workflow

Session starten

```
claude --dangerously-skip-permissions
```

Allgemeines

- Clear zwischen jedem Schritt:

```
/clear
```

- Aktuellen Progress anzeigen:

```
/gsd:progress
```

Neues Projekt

- Map Codebase bei vorh. Projekten

```
/gsd:map-codebase
```

- New Project

```
/gsd:new-project
```

Phasen-Loop (innerhalb Milestone)

- Discuss

```
/gsd:discuss-phase 1
```

- Plan

```
/gsd:plan-phase 1
```

- Execute

```
/gsd:execute-phase 1
```

- Verify

```
/gsd:verify-work 1
```

- Gaps (Bugfixes) planen:

```
/gsd:plan-phase 1 --gaps
```

- Execute

```
/gsd:execute-phase 1
```

Allgemeine Befehle

- Insights (Hinweise, Hilfen, Verbesserungs-Tipps, usw. - Dokument)

```
/insights
```

Code-Review-Graph

Global setup: per machine

```
python -m pip install code-review-graph
```

Install & init: per project

```
code-review-graph install --platform claude && code-review-graph build
```

Register - multi-projects - will be saved user-scope "." is the relative path

```
code-review-graph register . --alias server
```

```
code-review-graph register . --alias admin
```

```
code-review-graph register . --alias agent
```

```
code-review-graph register . --alias cloudapi
```

```
code-review-graph register . --alias website
```

Ponytail Plugin

Skills / slash-commands (6)

- /ponytail [lite|full|ultra|off] — the main mode (the persistent laziness instructions)
- /ponytail-review — review a diff only for over-engineering (what to delete)
- /ponytail-audit — same, but whole-repo: ranked list of bloat to cut
- /ponytail-debt — harvest ponytail: deferral comments into a debt ledger
- /ponytail-gain — scoreboard of measured impact (less code/cost, more speed)
- /ponytail-help — quick-reference card
